	Sample bottles „Schottflaschen“ 500 ml with red cap, for sample taking TOC / HPLC, non-sterile (1 PU = 6 bottles)	__ PU
	Sample bottles „Schottflaschen“ 100 ml with red cap, for sample taking Microbiology, heat-sterilized (1 PU = 10 bottles)	__ PU
	Sample bottles „Schottflaschen“ 250 ml with red cap, for sample taking Microbiology, heat-sterilized (1 PU = 8 bottles)	__ PU
	Sample bottles „Schottflaschen“ 500 ml with red cap, for sample taking Microbiology, heat-sterilized (1 PU = 6 bottles)	__ PU
	Swabs for sample taking, cotton tips; 1 Pck includes 200 / 300 pieces, Certificate of Analysis available at: <a href="http://www.techpharm.de">www.techpharm.de</a>	__ Pck
	<i>TECHPharm</i> example SOP swab and rinse <sup>2)</sup>	

<sup>1)</sup> Please check required positions.

<sup>2)</sup> Standard Operations Procedures (SOPs) provided by *TECHPharm GmbH* may be used by our customers for cleaning validation purposes and documentation, if applicable. Responsibility for using SOPs provided by *TECHPharm GmbH* however rests with the customer. The customer guarantees that SOPs provided by *TECHPharm GmbH* will not be handed to further companies. The SOPs are not subject to change index.

To ensure optimal conditions for analyses, we ask our customers to return the filled sample bottles to us in time and check for completeness. Please ensure that only the dedicated transport cartons provided by *TECHPharm* are used. To avoid fracture of sample bottles, please ensure that empty slots in the carton are filled with empty sample bottles.
